

THE VILLAGES AVIATION CLUB

# March 2020 SAFETY BRIEF

## Eliminate Distractions in Transportation

“Oh, great! Now there goes my hat!”

Larson

# Handwashing

- Germs can get into the body through our eyes, nose, and mouth and make us sick.  
Handwashing with soap removes germs from hands and helps prevent sickness.
- People often touch their eyes, nose, and mouth without realizing it, introducing germs into their bodies.

# The right way to wash your hands

- 1. Wet your hands with clean running water (warm or cold) and apply soap.
- 2. Lather your hands by rubbing them together with the soap.
- 3. Scrub all surfaces of your hands, including the palms, backs, fingers, between your fingers, and under your nails. Keep scrubbing for at least 20 seconds. Need a timer? Hum the “Happy Birthday” song twice.
- 4. Rinse your hands under clean, running water.
- 5. Dry your hands using a clean towel or air dry them.

Wear a facemask

# Travel Warnings and Notices

- CDC:
  - [China: Level 3 Avoid Nonessential Travel](#)
  - [South Korea: Level 3 Avoid Nonessential Travel](#)
