

The Villages Aviation Club

Safety Brief

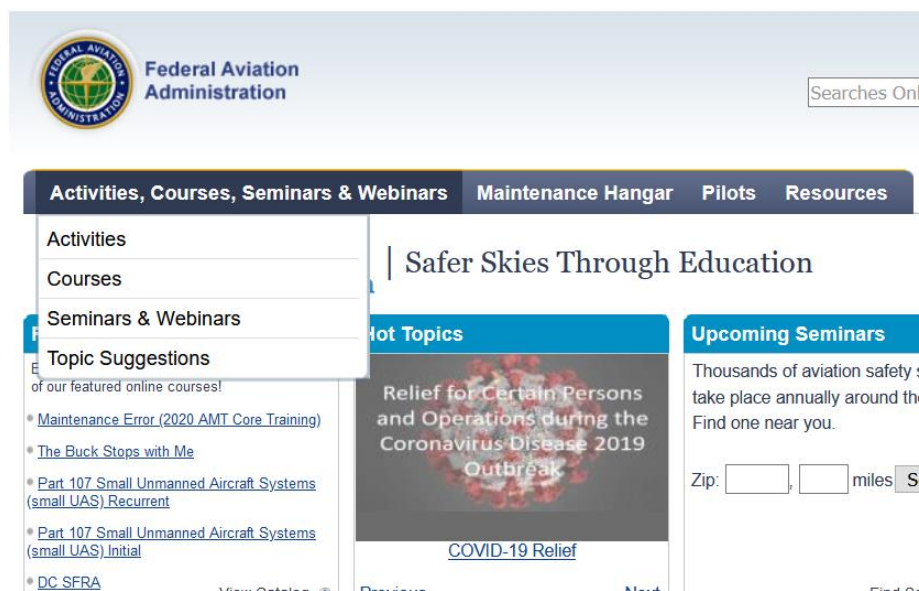

May 2020

While the rest of the world waits to get back to normal, things are happening in the aviation community to ease us pilots back into the air. Hardly any excuses to avoid taking some online courses, or watching some aviation safety videos.

Here are some places to start:

WWW.FAASAFETY.GOV.

Pilot's Workshop.com. IFR challenge Video. What would you do?

The WINGS Program review. A show review of what the WINGS program can do for you, to help you maintain your proficiency (Youtube).

Don't stop here, keep looking for training material, updates to FAA requirements, and ways to keep your proficiency standards high.

Till next time, FLY SAFE. Hopefully we'll see you at a meeting soon.
